Title	Listed Buildings in Wales Point Dataset
Date	2004-01-01
Date type	Publication
Abstract	<p>1.1 Background</p> <p>Buildings and structures of national importance are given legal protection by being placed on a 'List' of Buildings of Special Architectural or Historic Interest. Under Section 1 of the Planning (Listed Buildings and Conservation Areas) Act 1990, the Welsh Ministers are required to compile and maintain this list.</p> <p>The first Listing inspections were undertaken in the Post-War period. In the 1990s and early 2000s, the Historic Environment Service (Cadw) undertook a systematic programme of investigation across Wales called the 'Re-survey of Wales'. During the re-survey the buildings in each Community area in Wales were assessed for Listing. Since the Re-survey, the Listing of buildings has continued on a thematic basis (to include some of the more modern building types) and on an adhoc basis. This process is ongoing.</p> <p>In Wales there are over 29,000 buildings and structures on the list. Listed buildings range from Medieval Churches to modern commercial premises etc, structures can include railings, gate piers, walls, war memorials, gravestones, post boxes and telephone boxes –etc.</p> <p>Buildings on the List are given one of three grades which denote their level of importance, Grade I being the highest. The Grades are: -</p> <ul style="list-style-type: none"><li>• Grade I - Are of exceptional interest</li><li>• Grade II* - Are particularly important</li><li>• Grade II - Are of special interest</li></ul> <p>1.2 Frequency of Update</p> <p>The Listing of buildings and structures is an ongoing process. Buildings and structures can also be removed from the List in a process called 'De-Listing'.</p> <p>WMS/WFS endpoints on Lle provide a live version of the most current data available. Data downloads are updated via a separate process and are updated on a weekly basis. To avoid re-using old data offline users should periodically obtain the latest version from Lle.</p> <p>1.3 Depictions</p> <p>If the data is to be incorporated into a Geographic Information System, please note that point data only locates the listed building itself. It does not show the full extent of the listing which confers protection on any object or structure fixed to the listed building and which is ancillary to it, or is within the curtilage which forms part of the land and has done so since 1 July 1948. Some listings can comprise a single GIS point, however, it may refer to a number of buildings within the listing description, such as a terrace of houses. It is important not to rely only on this digital data as the primary source for identifying the listed building. The point depiction must be used in conjunction with the list description to ensure that the correct building has been identified. The list description is available online via the Cof Cymru - National Historic Assets of Wales by following the link below: -</p> <p><a href="http://cadw.gov.wales/historicenvironment/recordsv1/cof-cymru/?lang=en">http://cadw.gov.wales/historicenvironment/recordsv1/cof-cymru/?lang=en</a></p> <p>This dataset has been subject to a Positional Accuracy Improvement programme.</p> <p>1.4 Use of Data</p>

There are no use restrictions on this GIS data. Recipients may re-use, reproduce, disseminate this data free of charge in any format or medium, provided they do so accurately, acknowledging both the source and copyright as specified (see below), and do not use it in a misleading context. It is the recipient's responsibility to ensure the data is fit for the intended purpose, that dissemination or publishing does not result in duplication, and that it is fairly interpreted. Advice on interpretation should be sought where required. This data is periodically checked, however, if you wish to discuss the dataset, please contact Historic Environment Service (Cadw).

When using the above data under the Open Government Licence, please include the following attribution statement: -

Designated Historic Asset GIS Data, The Welsh Historic Environment Service (Cadw), DATE [the date that you received the data from Cadw], licensed under the Open Government Licence <http://www.nationalarchives.gov.uk/doc/open-government-licence/version/3/>

### 1.5 Other Information

Further information regarding Listed Buildings can be found on the Historic Environment Service (Cadw) website by following the link below: -

<http://cadw.gov.wales/historicenvironment/protection/buildconservation/?lang=en>

### 1.6 General Advice

For advice and guidance on all development or planning activities that may affect a Listed Building or its curtilage, please contact the appropriate Local Planning Authority. Applicants are also advised to seek pre-planning advice early in the planning process in order to address issues that could potentially arise at a later date.
